SUMMARY

Computer Science Engineering undergraduate with a strong foundation in Python, Data Structures and Algorithms, SQL and DBMS. Hands-on experience building machine learning models with Scikit-learn and developing Python applications using Streamlit, file handling and Matplotlib. Interested in software development and AI/ML, and seeking an internship to apply problem-solving skills to real-world engineering problems.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering 2023 – 2027
SJB Institute of Technology, Bengaluru

Class XII – S.S.L.S. PU College, Alike 2023

Class X – S.S.L.S. Vidya Kendra, Alike 2021

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java (Basics)
Machine Learning: Regression, Classification, Scikit-learn, Model Evaluation
Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks
Libraries and Tools: NumPy, Pandas, Matplotlib, Streamlit, Git, GitHub

PROJECTS

Student Performance Prediction

- Built a supervised machine learning regression model to predict students' final examination marks from academic and study-related features.
- Performed data preprocessing, feature analysis, train-test splitting and feature scaling with Scikit-learn.
- Evaluated model performance using standard regression evaluation metrics.

Smart Expense Tracker

- Developed a Python application to record income and expenses and maintain an up-to-date account balance.
- Implemented expense categorization, financial summaries and spending analysis to highlight spending patterns.
- Used file handling for persistent data storage and Matplotlib to visualize income and expense trends.

Smart Habit Tracker

- Built an interactive Python and Streamlit web application to create, manage and track daily habits.
- Implemented habit analytics, streak tracking and progress reports to monitor consistency over time.
- Added CSV export and persistent file storage to retain habit records across sessions.

CERTIFICATIONS

- **Machine Learning Specialization** – DeepLearning.AI and Stanford Online, Coursera (Credential)
- **GenAI Powered Data Analytics Job Simulation** – Tata, Forage
- **Python Essentials 1** – Cisco Networking Academy
- **Python (Basic)** – HackerRank
- **Human-Computer Interaction** – NPTEL

LANGUAGES

English – Professional Working Proficiency | **Kannada** – Native/Bilingual Proficiency
